

Cloe Chun and the Maine Master Naturalist Program

-- Free --
Public Invited

Cloe Chun, co-founder and instructor for the **Maine Master Naturalist Program** (MMNP), will describe the program and demonstrate some of the program's teaching and learning techniques. The MMNP trains individuals to actively care for Maine's natural environment, to teach natural history, and to be volunteer naturalists at nonprofits and schools throughout the state. The MMNP provides comprehensive instruction and field experiences on ecological principles, wetland and upland ecology, identification of Maine's flora and fauna, geology, and teaching skills. MMNP students attend classes and field trips, create a portfolio and nature journal, and design and complete a capstone project.

On **Tuesday, March 12th** join **Cloe Chun** at Audubon's Fields Pond Nature Center in Holden, Maine, just outside of Bangor. See driving directions at www.amcmaine.org under meetings and education committee. This event is jointly sponsored by the AMC Maine Chapter and Maine Audubon's Fields Pond Center. FMI email AMC Education Chair John Mullens at education@amcmaine.org or Audubon Naturalist Holly Twining at htwining@maineaudubon.org

Tuesday, March 12, 7pm
Maine Audubon's Fields Pond Center, 216 Fields Pond Rd, Holden, 04429
