The proposal for a new National Park and Recreation Area on lands east of Baxter State Park has evolved considerably in recent years and would include donated lands owned by Elliotsville Plantation, Inc. (EPI). Lucas St. Clair from EPI, the primary proponent of the park and current owner of lands in this area, will present the concept and be available for questions and answers following the presentation. The talk is being offered by The Maine Chapter of the AMC and Maine Conservation Policy Office. AMC seeks to inform members of the public on the details of the park proposal and solicit feedback. *Please note that this is a new and changed date for the event.
