

The Mt. Washington Observatory Inside and Out

February 22, 2011 Brunswick
Curtis Memorial Library,

Free, Public Warmly Invited

Meteorologist Sarah Long and observatory volunteer Steve Yenke will give a presentation on Mt. Washington and the Mt. Washington Observatory. Long, a former MWO Meteorologist, and Yenke, a MWO volunteer, offer a unique dual perspective of Mt. Washington. First, they'll look outside to examine why it's known as the "world's worst weather." Then, they'll peek inside the Observatory at the lives of the people who measure and monitor conditions, forecast, and educate about the magnificence and danger of the Northeast's tallest peak. Finally, find out how you can join them on the top.

A potluck dinner begins at 6 pm; Sarah and Steve talk at 7 pm. Bring a potluck item to share and your own dinnerware (plate, utensils etc.). Drinks will be available. For more information, go to AMCMaine.org/calendar/ or email Education Chair John Mullens at education@amcmaine.org
